JUSTICE AND RIGHT

VOLUME FIFTY TWO

Says WILL ROGERS

BEVERLY HILLS.—Well, all I know is just what I read in the papers, and what I see as I prow! this Chicago thing straightened out, I was out there for a whole week right here lately, and talked with everybody that I thought might know something of the real condition as it is out there. Course it was kinder like Politics, you have to discount about 90 per cent of what each side says. But the main thing we did find out, and that was that as far as crime is proportion to the population, when it has less than anybody's town. There has been lots of men killed, but they have been Gangsters, and 90 per cent of them have been killed by their own Gang, not by a rival Gang. It's been by their own, for some double crossing and holding out on their bosses.

You see they have very elaborate systems of checking up on you, the same as any big business has of checking up on their clerks or employees, and the minute they discover that you are not handing over all the "loot" or that you might be dealing with some rival enterprise, w h y they what is called "Put you on the spot," that means you are sentenced, and if your last insurance is not paid, it would be well to look into it, for you are "not going to be with us long."

You see lots of people think that all this Bucketting and Bootlegging and corruption is just a fly by night affair, run on a slipshod haphazard way. Well you never were more wrong in your life. You know as a matter of fact there is nothing as old as crookedness. It started away back when Eve used some political and sex influences on poor old Devil Adam to get him to gnaw on the forbidden Apple. Old Cain slew Abel, or visa versa, I don't know which. But anyway it was a argument over the Spoils. Meanness has always been better organized and conducted than righteousness. So these Lawmen are really of an old and ancient (and sometimes) honorable profession.

There is no such thing as a little Bootlegger, no more than there is a Little Banker. The day of the Little Banker is a small town is past. He is a Member of a chain. He is a subsidiary of some big Concern. Well that's what this is. Then look at an expenditure that none of the other basic commodities have to meet, and that is Protection. Talk about a Tariff wall? Why the tariff is only collected by one party and that's at the port of entry. But with this there is no end of the collectors who are there to levy tribute. What percent goes to Protection? Why say there is more collecting than there is selling.

Another thing, it's not so much that Chicago is such a terrible drinking place, but it is the clearing House the same as they are in the Wheat or Cattle Market. It comes in here from Canada, by every known conveyance. Then its made into lots of it, and its cut here. Then it goes out to the various branch places for delivery. Well that's a tremendous business, when you supply America thirsty, why you have been to a supplying. So this gang thing is bigger than most people realize.

Now what's going to be done to stop em? Well its as I have said off hand I can think of anything unless the Towns best people quit drinking. These boys couldn't get far if nobody was buying. The demand must be there, to create the market. So that's all we got to do to stop the whole thing. It don't seem much does it? Maby by next week everybody will have turned decent.

The Senate just sits and waits till they find out what the President wants so they know how to vote against him.

Be a good joke on 'em if he didn't let 'em know. For instance, if he had announced that he was going to let the Wickersham committee go and didn't want any more money voted for 'em, why they would have voted them a million dollars.

That's the way Mr. Coolidge used to do. He would keep 'em guessing so long that they voted his way accidentally part of the time.

We are a good-natured bunch of Apes in this country.

When the President is wrong we charge it to Inexperience.

When the tariff is wrong we laugh it off.

When Congress is wrong we charge it to habit.

When the Senate is right we declare a national holiday.

When a bank fails we let the guy go start another one.

When enforcement officers can't capture it fast enough to fill orders, that's good business.

Everything is cockeyed, so what's the use kidding ourselves.

(© 1930, McNally Syndicate, Inc.)

WOULD INSTALL NEW WATER SYSTEM

A proposition is before the Village council in regard to an improved system of water works that they must decide soon as to whether or not the question will be submitted to the voters for ratification or rejection.

Engineers have made up specifications and recommendations of plans, and approximate costs for same. We here submit a partial review of some of the most important portions of the engineers' report on the proposition.

The proposal carries with it a bonding issue involving an expenditure of \$43,023. The report reads in part as follows:

Report On Water Supply And Distribution System, Grayling, Michigan Saginaw, Michigan, May 30, 1930

Honorable Mayor and Council, Grayling, Michigan.

Gentlemen:

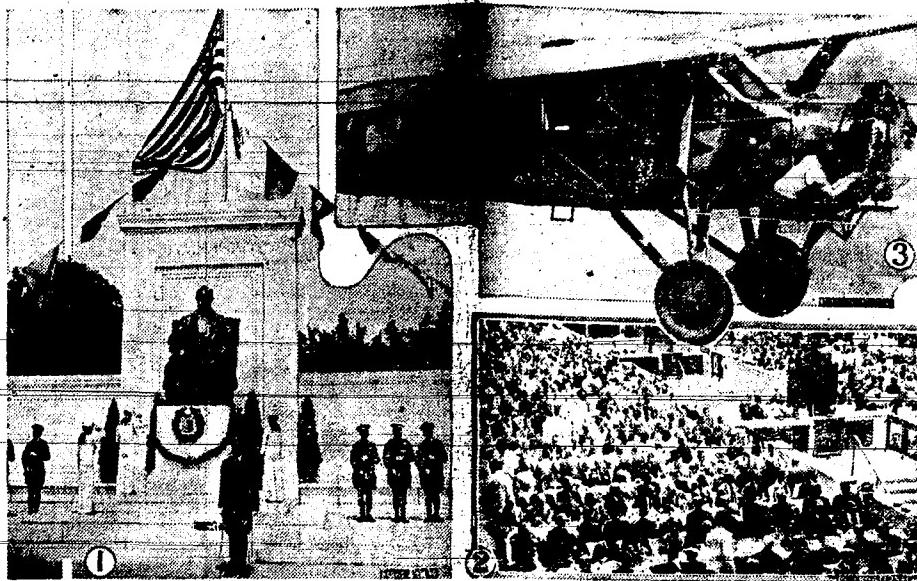

In accordance with your request, I have made a detailed examination of your pumping station and distribution system and would respectfully report as follows:

Existing Supply

The present supply of water used for municipal purposes is taken from the AuSable River, a short distance from the business section of Grayling. Water is pumped directly from the river into two horizontal pressure tanks and from these tanks into the distribution system. Each tank is 5 feet in diameter and 36 feet long, and when completely filled with water holds about 5,000 gallons. The pump used for domestic service is a motor-driven centrifugal, automatically controlled by a pressure regulator. The rated capacity of this pump is 500 gallons per minute and the head against which it pumps was observed to range from 40 to 68 pounds. A gasoline engine-driven centrifugal pump is installed as a reserve unit. This pump is equipped with a 100 ft. P. Controllable motor and has a rated capacity of 800 gallons per minute. It is said to use approximately 100 gallons of gasoline per twenty-four hours. The distribution system consists of cast iron and wood stave pipe. There is no elevated storage. There are about two hundred and twelve consumers.

Pumpage.—The maximum amount not metered but it is possible to make an approximate estimate of the average daily pumpage. During an inspection of the existing plant, it was found that the 500-gallon per minute motor-driven centrifugal pump was operated for about seventeen minutes and shut down for a period of three to four minutes. Because of its operating characteristics the quantity discharged by a centrifugal pump varies greatly with the head pumped against. If it be assumed that the average delivery was at the rate of 500 G.P.M., then on the above basis the average pumpage would approximate 580,000 gallons per day. However, the time interval above referred to probably would be changed during the night hours to a shorter pumping period and a longer rest period, so it is probable that the average daily pumpage is considerably below the figure above given. An estimate has also been made of the average daily pumpage by assuming an overall efficiency for the centrifugal unit and calculating the pumpage corresponding to the power consumption as shown by the monthly bills. On this basis the daily pumpage is estimated to be approximately 400,000 gallons, and it is believed that this figure is

RIALTO THEATRE TO OPEN JULY 17-18

FILE PETITIONS FOR PRIMARY ELECTION

As the time fast approaches for the final day for filing petitions for political offices (July 22nd) we notice the following petitions in circulation among our citizens:

For Sheriff—Jess E. Robenmoyer,

For Clerk—Lyle Mills, and we un-

derstand that Clarence Johnson and

Roy Holmberg also will enter the race

for the past year's activities

all fine men. These petitioners will

file on the Republican ticket. We are

told that Charlie Glorke, the present

incumbent, will not be a candidate

Also it is rumored that Frank Sales

will file on the Democratic ticket.

For Treasurer—Wm. Ferguson, re-

publican; and Clayton Strachly, democ-

rat.

Register of Deeds—Andrew Hart,

republican.

Prosecuting Attorney—Merle F.

Nellist,

Every taxpayer should be inter-

ested, and every parent sending child-

to school should likewise be con-

cerned. Improvement in our educational

system that will afford the ut-

most in learning for the boys and

girls who pass thru our schools, bet-

ter, if possible, school management

and sensible economy should be the

goal for which to strive.

It is only by better means at these

school meetings that the public may

have opportunity to register their ap-

proval of the work of the board of

trustees to offer such suggestions as may seem

practical.

JAZZING UP THE RECORD

"There should be room in the Con-

gressional Record for a Babe Ruth

as well as a Spender Longworth, for

Lindbergh and Byrd as well as for

President Hoover." This is the opin-

ion of Representative John J. Boy-

ton of New York, who is conducting a

vigorous campaign to modernize the

Record. Furthermore, there

should be room for cartoons, Mr. Boy-

ton says, often contain more wit and

wisdom than the orations which ap-

pear in the Record. It was a refusal

to allow the Representative to have

a cartoon published in the Record

which caused his indignation.

"The Congressional Record," said

Representative Boykin, "should re-

flect the manners—good or bad—the

customs, the habits, the inventions,

the art, the thoughts, the opinions, the

ups and downs of American life and

civilization."

That sounds like a pretty large

order. However, if Mr. Boykin knows

how to deliver it, we're all for him.

THE TOLL OF THE FOURTH

Michigan's observance of the great

National holiday exacted a toll of 18

lives. Of this number eight were at-

tributed to throwing and an equal

number lost their lives in motor mis-

adventures.

For the first time in modern years

not a single death was caused by

fireworks. At Detroit an exploding

bomb during a supervised display

seriously injured three persons and

slightly burned several others. It

was the only accident of this kind

reported in the state.

For the first time this year the

children were spared the serious after-

effects of the Fourth. The usual

long list of tetanus victims, children

with torn limbs, burned bodies, de-

stroyed or impaired eyesight are

missing from the accident list.

Governor Green, tight through two legis-

latures to prevent the unnecessary

loss of life and suffering has been

fully vindicated. Such victory alone

should suffice for many of the disap-

pointing things he has encountered

during his stay at Lansing. Michi-

gan should be happy in the thought

that it no longer sees the spectre of

torn and bleeding children—victims

of the greed of fireworks manufac-

ters.

FEW CASES TRIED

AIR CIRCUS AT PETOSKEY-H. SPRINGS

EVENT IS SECOND ANNUAL
MICHIGAN AIR TOUR DAY
AT EMMET AIRPORT

The greatest air circus in history will pay a visit to the Emmet county airport on Sunday, July 13, remaining there 24 hours and giving the most thrilling exhibition of stunt, exhibition flying and passenger carrying ever witnessed there. Assurance of this was given to the Harbor-Springs Committee at its session at Hotel Quiney. The meeting plans for entertainment for the tour passengers and officials who come want to get away from the field Sunday afternoon and evening, were made.

Most of the hundred pilots and mechanics will remain at the field all day and evening. All of them will take to the air during the day, giving the crowd thrills such as they never before witnessed. The admission to the field is to be free and automobile parking at the field will be handled by the Michigan state police. A charge for parking the cars will be made to cover cost of the day's program. The parking ticket for the plane is 25 cents. The 24 hours and their man come for a offer to the party-dessert.

O. P. Schumann of the Avalanche has been asked to head the delegations from this city and region to Petoskey next Sunday for the annual Air Circus at the Emmet county airport, the event being the program of the Meisel Hardware & Supply Co. for the day of the Second Annual Michigan Air tour. The entire city has been invited to be at the Emmet county airport, which is located just halfway between Petoskey and Harbor Springs, for the occasion.

The sixth plane to come difference will be at 9:30 in the forenoon and remain until the same hour Monday. All day Sunday the planes will be given over to stunt flying, exhibitions, airplane rides, inspection of the fifty kinds of planes, the band music and tour for the tour officials and passengers.

This occasion is an annual one for our Northern Neighbors who are extending

Local Happenings

Deauville sandals; \$8 to \$7, at Olson's.

Mrs. J. K. Hanson and Mrs. Louis Jensen returned from a visit in Ypsilanti and Detroit Monday.

Miss Beth Demming, who has completed her training at Mercy Hospital, left Tuesday for her home in Van Wert.

Mrs. Charles Allen and son Sam Smith motored to West Branch Friday to attend the Fourth of July celebration.

Mr. and Mrs. John Charlefour enjoyed a visit from Mr. and Mrs. Edward Miller and family of Pontiac on Friday.

Jerry Miller spent the latter part of the week with his parents, Mr. and Mrs. William Miller and family in Royal Oak.

Eddie Carlstrom and Harold Jacobson of Kalamazoo spent the Fourth of July in Grayling at the Charles Adams home.

William Butler and Mr. and Mrs. William Butler, Jr., of Dearborn spent the weekend end at the Floyd Taylor home.

The annual school meeting will be held in the assembly room of the High School on Monday evening, July 14, 1930.

Mr. and Mrs. Wilfred Cohen and Mrs. Augusta Wait of Detroit enjoyed the Walt cottage at Lake Marquette over the Fourth.

Mrs. James Katsui and Mrs. Carl Peterson of Grand Rapids arrived Thursday to visit their father, Worth Heath and friends in Grayling.

Russell Robertson is home from Bayport, where he has been employed at one of the state hatcheries. He will remain in Grayling indefinitely.

Mrs. George Smith of Detroit is visiting friends in Grayling for a few weeks and is a guest of Miss Carrie Jorgenson during the time she here.

Holger Schmidt and family are enjoying a new Ford coach.

Richard Kearns of Bay City visited over the weekend with his wife.

Miss Mary Harrison of Detroit is visiting relatives and friends here.

Mr. and Mrs. Hanson Wescott announce the birth of a son, Chauncy.

Well dressed men wear Bostonian shoes. See the new styles at Olson's. —Adv.

Mrs. Arthur Waite and children of Midland are visiting at the home of Elrey Waite.

Ed. Parker and Louis Streeter of Lansing are spending their vacation at the Herbert Parker home.

Harry Wright, wife and daughter of Lansing were guests at the Frank Peck home over the Fourth.

Miss Fern Armstrong returned to her duties at the Grayling Mercantile Co. store Monday after a two week's vacation.

Mrs. Fred Burden and daughter Donna Virginia of Detroit are spending a few weeks at a cottage at Lake Margrethe.

Mrs. Robert McKay and Mrs. Vernon of West Branch were guests the first of the week of Mr. and Mrs. H. W. Wolf.

Mrs. C. T. Kerr and Miss Thomas of Saginaw arrived Wednesday to spend the summer at the Kerr cottage at Lake Margrethe.

Russell Cripps and family returned Sunday from a week's stay in Lansing, and were accompanied home by Miss Clara Whipple, who will visit here for a while.

Mr. and Mrs. L. J. Martin and son Edward were called to St. Ignace last Thursday by the serious illness of the former's mother.

Howard Parks and family enjoyed a visit from his brother Neil Parks and family of Lansing Wednesday, who were enroute to the Soo.

Mr. and Mrs. Fred Catlin of Toledo arrived Tuesday to spend a couple of weeks visiting the latter's parents, Mr. and Mrs. Paul Zielbier.

Mr. and Mrs. Edward King of Flint visited the latter's mother, Mrs. George Miller, the latter accompanying them on their return for a short visit.

Mrs. Maxine Curtis and family, accompanied by Miss Priscilla Park have returned after spending a week at Sunny Beach Country club, Detroit.

Mr. and Mrs. Forrest Barber and children of Durand are here for a couple of weeks visit with Mrs. Barber's parents, Mr. and Mrs. George Biggs.

Mrs. Katherine Kuster and son John of Caro visited friends here the last of the week, and attended the Homecoming at Lewiston on the Fourth.

Mrs. Blanche Houghton and Mrs. Blanche Hull enjoyed a motor trip to Interlochen Bowl Sunday, where they had the pleasure of hearing a concert by the National High School Band, composed of eight hundred boys and girls.

Mr. and Mrs. William Green and son Gordon, Holger and Helen Cook, Mr. and Mrs. Robert Paulson, and Mr. Emory Mowbray all of Detroit were in Grayling over the 4th. Mr. and Mrs. Mowbray are remaining for the summer and are stopping at Mr. Peter Madsen's.

Charles Dan MacCauley and Miss Lacey Lee Feguer, both of Lansing, were united in marriage at the M. E. Maranong on July 4th. Rev. Greenwood tieing the knot. The young couple was accompanied by Miss Mildred Corwin and Mr. Frank Bromley and were guests at the Corwin home over the week end.

George Woods, who has been residing on Cedar street, got into an altercation with Herb Gothro Monday evening, apparently peev'd over being required by Gothro to vacate the premises which he was looking after for Cletus St. Pierre. It is stated that he attempted to take a poke at Gothro and that the two mixed herbs says he didn't get hurt any. Woods it is claimed, used profane, immoral and vulgar language in the presence of ladies on the street during the melee and was arrested on that charge. Woods paid a fine of \$10.00 and costs rather than to serve 25 days in jail.

Butter-Top Bread is the name of the latest loaf put out by the Grayling Bakery. This is made by a new process and is making a great hit everywhere it is tried. Grayling Bakery is now offering one of the largest assortment of loaves of bread ever offered by any bakery. Their regular loaf, their whole-wheat loaf, raisin loaf, rye bread, potato bread, and now their Butter-Top loaf, is a wonderful assortment for any bakery to offer. Try them all. Ask for a loaf of Butter-Top and get acquainted with this newest member of the bread family. It's going over big everywhere. Every store handling bread in Roscommon, Prudenville, Frederic, Lovells, Lewiston and Vanderbilt is handling Grayling bread. Also nearly every store in Grayling is doing the same; in fact every store here should sell Grayling bread. Mr. Craig is to be congratulated for his hustling enterprise.

Irving Dupree of Detroit, Mr. and Mrs. Dupree and baby George of Bay City and Mr. and Mrs. Donald Bratton and daughter Betty of Detroit, Mr. and Mrs. Benjamin Jerome and Dr. and Mrs. C. G. Clippert.

John Mallinger accompanied by Mrs. Chris Hoelsl, son Clarence, and Miss Dorothy and Miss Clara Bugby motored to Detroit this week to spend a few days visiting friends and relatives.

Mr. and Mrs. Emil Hanson and family, Mr. and Mrs. Magnus Hanson and children and Miss Marian Phelps of Detroit were guests of Mr. and Mrs. Holger Hanson over the Fourth.

Mr. and Mrs. Hugo Schreiber, Sr. and other relatives enjoyed a visit from Mr. and Mrs. Wm. Wm. Schreiber and Sally Dickenson of Dearborn and Mrs. Rosa Lietzau of Lansing over the week end.

Edward Barnes was arrested last Monday charged with the larceny of a car from near Vanderbilt, which he beat to Grayling. The car was the property of James Yuill of Vanderbilt who came here and made the complaint. Barnes appeared before Justice Petersen and upon his plea of guilty, paid a fine of \$25.00 and court costs.

Grayling friends of Miss Kathleen C. Woodbury, daughter of Mr. and Mrs. Charles M. Woodbury of Bay City, will be pleased to learn of her marriage on June 21st at Bowling Green, Ohio to Lieut. Harold David Krick, U.S.N., of Richmond, Ind. Mrs. Krick is a graduate of the University of Michigan and Lieut. Krick of the Naval Academy, Annapolis. The bride, who is a granddaughter of Mrs. Clara McLeod, has been a frequent visitor here.

Mr. and Mrs. Willard Laurant enjoyed a visit Sunday from Mr. and Mrs. Howard Sonnett of Detroit, who were accompanied by Mike Bel and Frances Woodburn. The party had attended the Homecoming at Lewiston. Others in the party included Frank LaSprague, Mose LaSprague and Mr. and Mrs. Ernest Woodburn, all of Detroit.

The Ladies Auxiliary enjoyed a delightful pot-luck lunch at the club house Wednesday afternoon. There

was a large number present. The bridge prize was won by Mrs. Emerson Bates of Lansing who was guest of the club, while the house prize fell to Mrs. Fred Alexander.

Next Wednesday the golf contest will be held at 10 o'clock in the morning and bridge at two o'clock in the afternoon.

Miss Fern Armstrong entertained a number of guests over the week end including Mr. and Mrs. Calvin Church and son Jack, Miss Vera Dutcher and Frank Hale, all of Detroit, Misses Marjory Woods and Jane McGrady and Carl Trombley of Bay City, Mr. and Mrs. Wm. Wm. Woods of Flint. Together the party with Miss Armstrong, Miss Ann Johnson, Clarence Johnson, Harold Cliff, Mr. and Mrs. Harold McNeven and daughter Gloria and Mr. and Mrs. Frank Tetu and children attended the Homecoming at Lewiston, camping near that place. This was the childhood home of Miss Armstrong and Clarence Johnson.

Mrs. George Alexander left today on a short trip to Saginaw.

Miss Genevieve Montour was home from Ann Arbor for the week end.

Corwin Auto Sales report the sale of a Plymouth sedan to Maurice Gorman.

Mrs. Thelma Kline of Akron is a guest at the Rev. Greenwood's home for the week.

Mr. and Mrs. Axel Michelson entertained on Monday Mr. and Mrs. Renard and daughter Miss Romaine of Detroit. Miss Renard remained for a longer visit with Miss Jean Michelson.

Arrested for disturbing the peace at the Grayling Free Tourist park, Ed Hartnagle, Sam Coin, Carl Ingwiss and Loyd Burge each paid fines of \$10.00 and \$5.00 costs, in Justice H. Petersen's court.

Frank Brady and son Donald of Saginaw and Mr. and Mrs. Pat Moore, daughter Patty Ann and son Donald of Detroit were guests of the B. J. Callahan and John Brady families over the week end.

Mr. and Mrs. Ray Winslow and daughter Norma Jean of Lapeer visited the Paul LaBrush family over the Fourth. Miss Alice LaBrush, who had been visiting the Winslow family a few days came home with them.

Anyone wanting one of the Grayling Cook Books will have to act quickly as there is only a limited supply left that will be sold at St. Mary's stand located between the Dollar and A. & P. stores. Price \$1.00.

Mr. and Mrs. Emil Giebling and children spent the Fourth at Manistee.

Mr. and Mrs. Glen Peard of Detroit visited friends here the first of the week.

Mrs. Margaret Bauman entertained us last night. Mrs. Russell Pope of Bay City.

Howard Parks and family enjoyed a visit from his brother Neil Parks and family of Lansing Wednesday, who were enroute to the Soo.

Get a hair bobbin free. Given away with every child's haircut at Ernie Olson's, the Marinello Beauty parlor. Opposite court yard. —Adv.

Mr. and Mrs. Leo Jorgenson and daughter Benny visited over the Fourth with relatives in Adrian. Benny Jorgenson accompanied them going to Detroit for the week end.

The Misses Margrethe and Ella Hansen returned Wednesday from a very pleasant trip to Seattle, Washington, where they attended the National convention of the Alpha Phi Sorority.

Mr. and Mrs. Carl Hanson and Alfred Larson family of Johannesburg entered the week end in the Fourth in Manistee where they were the guests of Mr. and Mrs. Fred Norton.

The front page gives the complete report on our water supply and distribution system as reported by Mr. H. E. Palmer, Superintendent of Water Works, Chicago, engineer. It is very enlightening and worth reading.

Mrs. Alfred Hermann and little daughter Barbara Elizabeth of South Bend, Ind., are spending a couple of weeks visiting at the M. A. Bates home. Mr. Hermann accompanied them returning after spending the week end.

Miss Bernice Corwin in company with Miss Ada Kidston of Flint and Mr. and Mrs. H. E. Palmer, engineer, are enjoying a motor trip that will take them to many points of interest in Canada. The party left by way of the Straits.

Misses Ingeborg and Agnes Hanson, accompanied by Howard McKenzie visited over the Fourth with the former's parents, Mr. and Mrs. Walter Hanson. Miss Anna Hanson accompanied them on their return to Detroit to spend a couple of weeks.

Mildred Hanson spent a few days in Detroit last week visiting her mother, Mrs. Hansine Hanson.

She is making a rapid recovery from an operation performed recently at Harper Hospital. Mrs. Hanson and daughter Miss Ingeborg who has been staying with her mother, are expected to return home next week.

Edward Barnes was arrested last Monday charged with the larceny of a car from near Vanderbilt, which he beat to Grayling. The car was the property of James Yuill of Vanderbilt who came here and made the complaint. Barnes appeared before Justice Petersen and upon his plea of guilty, paid a fine of \$25.00 and court costs.

Grayling friends of Miss Kathleen C. Woodbury, daughter of Mr. and Mrs. Charles M. Woodbury of Bay City, will be pleased to learn of her marriage on June 21st at Bowling Green, Ohio to Lieut. Harold David Krick, U.S.N., of Richmond, Ind. Mrs. Krick is a graduate of the University of Michigan and Lieut. Krick of the Naval Academy, Annapolis. The bride, who is a granddaughter of Mrs. Clara McLeod, has been a frequent visitor here.

Mr. and Mrs. Willard Laurant enjoyed a visit Sunday from Mr. and Mrs. Howard Sonnett of Detroit, who were accompanied by Mike Bel and Frances Woodburn. The party had attended the Homecoming at Lewiston. Others in the party included Frank LaSprague, Mose LaSprague and Mr. and Mrs. Ernest Woodburn, all of Detroit.

The Ladies Auxiliary enjoyed a delightful pot-luck lunch at the club house Wednesday afternoon. There

was a large number present. The bridge prize was won by Mrs. Emerson Bates of Lansing who was guest of the club, while the house prize fell to Mrs. Fred Alexander.

Next Wednesday the golf contest will be held at 10 o'clock in the morning and bridge at two o'clock in the afternoon.

Louis Sackrider of Roscommon, caretaker of a club on the South Branch river, crashed into an auto with his car near the Grayling Golf Club Saturday night, and was thrown from his car, hitting the three cars that were occupied into a heap, while his own car also was wrecked. It is stated that he was driving south and as he left the Weaver gas station near the Golf course he failed to notice the on-coming cars. He was arrested, charged with driving an auto while under the influence of liquor. The occupants of the cars were somewhat injured and a small child received wounds that, it is claimed, will leave lasting marks and disfigurement. Sackrider had severe face and head wounds. Justice Petersen sentenced him to pay one of \$75 and costs and also suspended his driver's license for a period of three months.

WOULD INSTALL NEW WATER SYSTEM

(Continued from first page)
probably much nearer to the correct one than the 580,000 gallon figure arrived at by the first method.

Population

Grayling was incorporated as a village in 1903. Its population as shown by the census taken in 1910 and 1920 was: 1910—1,275; 1920—2,450. It is understood that the 1930 census will show about 2,000 population.

Per Capita Consumption

Assuming an average daily pumping of 400,000 gallons, and a population of 2,000, the per capita daily consumption is 200 gallons. This figure is extremely high. The customary figure for cities the size of Grayling does not exceed 50 to 75 gallons. There is no question but that the very high pumpage is due to leakage in the distribution system, and it is also highly probable that the most of the leakage occurs in the wood stave mains.

Quality Of Water

The present water supply, coming from a surface stream, without any purification, is unsatisfactory for drinking on account of the very serious danger of contamination. The water is also turbid at certain seasons and cannot be regarded as a satisfactory supply for a city the size of Grayling.

Private Wells

The unsatisfactory city supply has made it necessary for the inhabitants of Grayling to depend on wells for drinking water, and in a number of cases, for all purposes. Many of these wells are equipped with individual motor-driven pumps and thus entail an expense to the owner, for power, interest on the investment in the pumping equipment and the expense of repairs and maintenance.

Proposed Improvements

An adequate supply of water suitable for all purposes can be obtained from a large deep well located near the existing pumping station. At the present time there is an artesian well located in a cutture across the state highway from the pumping station, which delivers a constant stream of water. This well is said to be about 44 feet deep. After penetrating 8 feet of sand near the surface, the well passed through 4 feet of clay and then into 32 feet of sand. A test well recently sunk near the pumping station showed the following log:

0 to 15 ft. sand
15 to 16 ft. clay
16 to 47 ft. sand

Exhibit A accompanying this Report shows a sieve-analysis of samples of sand from various depths. The coarse sand was found at a point 27 feet below the surface. All of the sand is comparatively fine.

There are several different types of wells which can be used to develop the supply. The oldest type consists of a stonelike or screen consisting of a well having a diameter of from 3 to 10 or 12 inches, and equipped with a slotted strainer or fine wire mesh screen. This type of well, while it will not produce as much water as a well of larger diameter, is satisfactory when first installed; but it becomes corroded after use and fine particles of sand gradually clog the strainer.

A more recent development is a well of larger diameter, which is packed with gravel on the outside during construction. This type of well is also provided with a screen, but the openings in the screen are not as fine as in the first type of well referred to above. Gravel on the outside acts as a strainer to hold the sand out of the well. The gravel also permits the water to flow freely to the strainer. Wells of this type are constructed by the Ohio Drilling Company, Layne & Bowler Company, Kelly Well Company, Thorpe Concrete Well Company, and a number of other companies.

This type of well is ordinarily equipped with a vertical motor-driven centrifugal pump. The motor is located at the ground level and a vertical shaft and drop pipe extend downward to the pump bowl located near the bottom of the well. The efficiency of this type of equipment is less than that of a horizontal motor-driven unit, such as is now installed in your existing pumping station.

A third type of well is one of large diameter. Such a well may have a diameter of from 8 to 20 feet, or even larger. Wells of this type are installed whenever it is desirable to get as large a yield as possible from the sand strata in which they are located, and where it is also desired to install a horizontal motor-driven centrifugal pump for economical operation. A photograph of a model of this type of well appears in the Report as Exhibit B.

This well is constructed by erecting the steel strainer section in a pit dug at the surface of the ground and sinking this strainer section and the concrete shell above it by excavating from the interior. After the well has been sunk to the proper depth a concrete bulkhead or floor is poured under water, immediately above the strainer section, and the interior of the well above this section pumped out.

A horizontal motor-driven centrifugal pump is then installed on the bulkhead or floor and its suction nozzle connected to the suction pipe extending through the bulkhead into the lower portion of the well. Since the entire pump is in a dry pit, it is accessible for inspection at all times. Gravel nozzles are placed just inside of the steel strainer section so that the action of the well is similar to the smaller diameter wells in preventing sand from flowing into the well. A well of this type, 9 feet in diameter and 45 feet deep, is recommended for Grayling.

Distribution System. With the exception of the 10-inch pipe from the pumping station to Michigan Avenue, the wood stave mains in the system are nearing the end of their useful life and should be replaced immediately with cast iron pipe. In addition to the replacement shown, certain extensions have been suggested which will promote the circulation in the system and afford much better pressures and an increased supply of water for fire fighting purposes.

The reasons for the installation of the particular mains shown, are as follows:

The 6-inch main on James, Huron, Fulton, Medson, State and Maple Streets should be installed to provide fire and domestic service in a section of the city which is without such service at the present time. The portion of this line on Maple Street, from Ingham to Michigan Avenue, will cost \$1,000, making a total of \$4,000.

Engineering and contingencies 15% \$6,677. Total, \$43,528.

A smaller diameter well (24-inch to 30-inch) could probably be constructed for about \$60 to \$75 per foot, or for a 45 ft. well, \$2,700 to \$3,275.

A deep well pump of 300 gallons per minute capacity and complete with a 100-horsepower motor and a 100,000-gallon elevated steel tank.

Well completed with well house, piping, wiring connections and 300 G.P.M. pump, \$8,200.

Elevated tank, \$22,656.

Foundations and land, \$9,900.

Engineering and contingencies 15% \$8,677.

Total, \$43,528.

A 75,000-gallon tank will cost approximately \$7,800, exclusive of foundations; and a 50,000-gallon tank approximately \$6,500, ex-

clusive of foundations.

The 4-inch line on Ionia Street, Conclusions And Recommendations

from Spruce to Maple Street, will connect up a dead end. The 4-inch line to be installed of perpendicular Avenue will replace the wood stave pipe on that same street. This line will be extended through to McClellan Street in order to provide a connection with the proposed 6-inch line on that street.

The 6-inch line on Spruce Street will replace the existing 4-inch wood stave pipe. The 6-inch line on Ogemaw will replace an existing 3-inch wood stave line and will be extended one block to Plum Street, to afford better fire protection for this territory.

It is recommended that the hydrant be moved to Elm and Ogemaw and a new hydrant be installed at Plum and Ogemaw.

The 6-inch line on McClellan, Smith and Maple Streets will serve as a main to connect to the elevated tank and will provide a much better supply for the hydrant located near the hospital. It will also replace the 3-inch wood stave pipe on Maple Street, between Vine and Lake Street.

The proposed 6-inch line on Park Street will serve to connect the mains on Lake, Ogemaw and Michigan Avenue, and will afford better pressure and supply to the 4-inch line on Ogemaw and the 4-inch line on Michigan Avenue.

The wood stave pipe on Michigan Avenue will be replaced with an 8-inch cast iron main extending from Chestnut Street to Maple Street, a 6-inch main from Maple Street to Park Street, and a 4-inch main from Park Street to Plum Street.

With the exception of the mains in the south-eastern portion of Grayling, most of the mains which have been added, replace existing wood stave pipe. The new mains have been planned so that there are only three dead ends in the entire system, and only three hydrants are located on these dead ends. In the existing system all of the hydrants are supplied from one direction.

It is possible to get the same quantity of water from a hydrant at a greatly increased pressure if the hydrant is on a loop rather than on an end, since its supply comes from two directions rather than one. Exhibit D is a tabulation of proposed mains, hydrants and valves.

Elevated Tank. Under the present system of operation it is necessary to start the gasoline engine in the event of the failure of power at the pumping station. Some time is involved in this operation and the pressure throughout the distribution system rapidly drops down to zero. Should a bad fire start during such a time, it would prove disastrous. The difficulties of operation with a system such as Grayling now has are so well recognized by Engineers that most cities of its size are provided with an elevated storage tank. One of the extremely valuable features of such a tank is its ability to furnish any supply of water which may be required for fire. For a city the size of Grayling the National Board of Fire Underwriters recommend that the water works system be able to supply at least 1500 gallons per minute in case of fire. Even assuming that both of the existing pumps were put into immediate operation in the event of a bad fire, their combined capacity is only 1300 G.P.M. The 1500 G.P.M. previously referred to is the quantity required for fire purposes alone and to it must be added the quantity which might possibly be required therefore, for fire fighting and for domestic consumption.

Fruit enough to make vinegar for a year's supply is wasted on many farms. Surplus or inferior fruit will make good vinegar. Apples, grapes, peaches, oranges, pimmonies, and some berries are satisfactory, say scientists of the U. S. Department of Agriculture. Any fruit containing enough sugar will serve the purpose.

To broil tomatoes, wash them, remove the stem ends, cut in half, put in a greased shallow baking dish, add salt, pepper, and melted butter or other fat to season, and place under the flame of a broiling oven, far enough from the flame to allow the tomatoes to cook before browning. Broil for 20 to 30 minutes or until tender and lightly browned. Serve garnished with parsley on crisp buttered toast.

Fruit enough to make vinegar for a year's supply is wasted on many farms. Surplus or inferior fruit will make good vinegar. Apples, grapes, peaches, oranges, pimmonies, and some berries are satisfactory, say scientists of the U. S. Department of Agriculture. Any fruit containing enough sugar will serve the purpose.

To broil tomatoes, wash them, remove the stem ends, cut in half, put in a greased shallow baking dish, add salt, pepper, and melted butter or other fat to season, and place under the flame of a broiling oven, far enough from the flame to allow the tomatoes to cook before browning. Broil for 20 to 30 minutes or until tender and lightly browned. Serve garnished with parsley on crisp buttered toast.

Vitamin C in the diet is supplied by citrus fruits (oranges, grapefruit, and lemons) raw cabbage, turnips and tomatoes, raw, cooked or canned. Apples, potatoes, raspberries, spinach, sprouted legumes, and string beans are other sources of this vitamin. The body has only a limited capacity to store vitamin C. Also, this vitamin is very easily destroyed by heat and oxidation. Hence in planning the menu it is well to include at all times one or more of the foods known to supply vitamin C.

The Federal food and drugs act requires every package of food except those containing one half ounce or less to carry a plain and conspicuous statement of the quantity of the food in the package. Do not be influenced by the apparent size of the package, read the labels. It frequently happens that what appears to be a large container will actually contain less material than one that seems smaller. The first injunction to the housewife is to read the food labels, is to read the quantity-of-contents statements on labels—that is, the net weight or net-volume statement. Determine whether the quantity received is the same as expected, compare this quantity with the quantity offered by other brands of the same quality, and buy the product which gives the best value for the money.

I AM CARELESS. Today is one of Extreme Forest Fire Hazard. Please be particularly careful with your burning tobacco and campfire.

This warning on a flaming red tag is being attached to every automobile crossing north on the state ferries at Mackinac during the summer days and nights that sing health and comfort. No other state offers more in the way of clean air and wholesome and healthful diversion for those who wish to spend the day afield.

And yet over one single holiday period eight lives were sacrificed to carelessness. Lakes and streams that mirrored back the blue of heaven became the temporary tombs of nine pleasure-seeking persons; beautiful stretches of highways—the shrambles where as many more three of them innocent children, were thrown to death because somebody failed to exercise even ordinary judgment.

We admit our inability to fathom the mind of the motorist who dashes headlong to destruction, who throws caution to the winds and rides a death's head into the midst of happiness; we cannot understand those who venture from the shore and carelessly beckon to the dangers of the deep as if it were a mantle to cover their forms; sometimes it seems as if they deliberately chose the wild rush of human emotions in which to begin the great adventure. It leaves us mystified and full of wonderment.

If you don't believe Mexico is becoming rapidly Americanized just consider that the Mexican government is starting some sweeping investigations.

The City of Grayling is at the present time provided with a water works plant which furnishes a polluted water, through a distribution system consisting largely of wood stave pipe, in poor condition. There is no elevated storage and in case of fire the pressure and quantity of water available at practically all of the hydrants is entirely unsatisfactory. The pumpage is very high as a result of loss in the distribution system. Maintenance on the present system is extremely high because of the leaks which develop on the wood stave pipe.

It is recommended that a 6-inch line be installed on Spruce Street, to connect up a dead end. The 4-inch line to be installed of perpendicular Avenue will replace the wood stave pipe on that same street. This line will be extended through to McClellan Street in order to provide a connection with the proposed 6-inch line on that street.

The 6-inch line on Ogemaw will replace an existing wood stave line and will be extended one block to Plum Street, to afford better fire protection for this territory.

The estimated cost of these improvements, including an allowance for engineering and contingencies, is \$43,523. This is equivalent to approximately \$22 per capita, which is less than the per capita cost of a great many water works improvements undertaken by other cities.

Respectfully submitted,
Herman H. Eymar,
Engineer.
F. G. Gordon, Associate.

Inside Information

Serve small portions of food to children so that they can clear their plates without the feeling of being stuffed, and without being nagged into eating. Then give second helpings if wanted.

Liver and cucumber salad is a good combination. Mix 2 cups of cold chopped cooked liver, 1/2 cup of diced cucumber, and 1/2 cup of diced celery with mayonnaise dressing. Serve on lettuce leaves.

Refreshing, juicy, fine-flavored watermelons have been found to have still another virtue. They are a good source of two important vitamins, A and C, and contain delectable amounts of two others, B and G.

Raglan sleeves on a child's dress are more comfortable than either the set-in or the kimono sleeve. They are more easily made than set-in sleeves, and they allow room for growth without making the dress look too broad across the shoulders.

Fry small fish over a slow even heat in a small amount of good-flavored fat, using a heavy skillet. Roll in flour and put into hot fat without crowding. Reduce the temperature and cook evenly and slowly until a brown crust is formed on one side, then turn carefully and cook on the other. Serve a section of lemon with each portion. Heat plates and platter and serve the fish very hot.

NEWS REVIEW OF CURRENT EVENTS

Congress Finishes Up Much Legislation and Ends the Special Session.

By EDWARD W. PICKARD

DETERMINED to bring the special session to a close before the Fourth of July, congress was very busy the first part of the week, clearing up the pending legislation. Taking up the new World-war veterans' bill passed by the house, the senate again showed its utter disregard for President Hoover's views, and its keen desire for votes next fall. It loaded the measure down with amendments, chief of which was one increasing the pension rates to the Spanish war level. Another would permit veterans who contracted venereal diseases during their war service to obtain disability allowances.

The bill was sent to conference for elimination of the features that would be most objectionable to the President.

Among the bills passed by the house was the Wickersham commission's border patrol bill designed to help in curbing the smuggling of liquor from Canada and Mexico. It establishes an enlarged and unified border patrol service in the treasury under the assistant secretary in charge of the coast guard, increases the number of entry stations, and makes it a misdemeanor, subject to \$100 fine, to cross the border except at an entry station, with certain exceptions.

The senate passed the house bill which authorized the President to constitute and co-ordinate governmental activities affecting the war veterans.

SECRETARY of the Treasury Mellon announced that the fiscal year 1930 closed with a surplus in the treasury of \$154,000,000. This amount represented the difference between receipts and expenditures. The public debt was reduced during the year by \$74,000,000. There was a net balance in the general fund at the close of the year of \$318,000,000.

While the surplus was substantially the same as in the fiscal year 1929, Secretary Mellon pointed out that it included the abnormal sum of \$76,000,000 paid by foreign governments in June in cash instead of in securities of the American government and also included abnormal customs receipts, due to anticipation of tariff legislation.

SENATORS JOHNSON of California, Moses of New Hampshire and Robinson of Indiana filed with the senate their minority report from the foreign relations committee, setting forth their reasons for opposing ratification of the London naval treaty. These reasons are already well known to the public and need not be repeated.

Dispatches from Washington said that the national defense committee of the American Legion had made a report two weeks previously recommending that the Legion declare for rejection of the treaty, and that nothing more had been heard of the matter. One rumor was that administration influences had succeeded in bringing about the postponing of the report.

Over London two of England's most famous naval commanders, Earl Beatty and Earl Jellicoe, made hot attacks on the treaty, asserting that by signing it their government was throwing away "the sea power by which the British empire came into being and developed into what it is today."

PRESIDENT HOOVER has named as head of the new federal power commission Lieut. Gen. Edgar Jadwin, who in his service as chief of army engineers gained a thorough knowledge of the waterways of the country. His nomination, with those of the other four commission members, will be sent to the senate in special session this summer for confirmation. When two members have taken office the new commission will supplant the old one, which had as its members the secretaries of war, interior and agriculture, and which, since 1920, has supervised the expenditure of about \$350,000 for power development.

In the new commission applications for power plants are to be placed in the hands of five \$10,000 men who, the act stipulates, may have no other occupation. Nor may they have been connected in any way with, or hold any stock in, power companies. At present 70 applications are pending with the commission.

IN A radio address to the governors' conference which met in Salt Lake City, President Hoover announced that federal, state and local governments had spent or contracted to spend a total of \$1,700,000,000 for public works during the first six months of the present calendar year. This figure, he said, exceeded by over \$200,000,000 of the boom year of 1929. He advised the governors that there is still need for "continued serious effort" in every state and community to bring an early business recovery, and to reduce unemployment.

Several of the western governors delivered addresses scorning the federal government for its invasion of states' rights, especially with regard to the public domain, unappropriated lands, and mineral and oil rights.

PROHIBITION enforcement was transferred July 1 from the Treasury department to the Department of Justice, and Attorney General Mitchell became the commander in chief of the Federal dry army with Col. Amos W. W. Woodcock as his chief of staff. It was understood in Washington that the government's limited staff and appropriation will be devoted henceforth to detecting large commercial bootlegging, while the effort to obtain greater co-operation by the states will be expanded. Many changes have been made already in the forces of prohibition administrators, the most important being in the metropolitan areas of New York and Chicago. In the former, Maj. Maurice Campbell resigned when ordered to Boston to take charge of alcohol permits and gave

out a statement attacking "United States attorneys with political aspirations," and Treasury department officials who "have not been sincere in their efforts to enforce this law."

He declared his experience had led him to the following conclusion: "Prohibition is not the logical solution for temperance under our form of government, and I now publicly advocate the repeal of the Eighteenth amendment before the nation is consumed in the fire of its consequences."

Col. John H. J. Herbert became the enforcement boss of Illinois, Indiana and Wisconsin, displacing E. C. Yelton, who remains in control of all alcohol permits in that area.

CONGRESSMAN E. E. DENISON of Illinois, a dry Republican who was indicted on a charge of illegally possessing liquor because of a leaking suitcase, escaped being tried when Justice Gordon of the Supreme Court of the District of Columbia denied a writ of habeas corpus. The indictment failed to particularize the charge against Denison sufficiently to enable the latter to frame a defense and plead an acquittal as a bar to a subsequent indictment.

WITH the stroke of midnight on June 30 the last of the French troops of occupation departed from the Rhineland and Germany was freed from the incubus that had rested on it for almost twelve years. The German people celebrated the event with the ringing of bells with great parades of singing men and women, with the playing of bands and with fireworks. Especially impressive was the jubilee in the town of Speyer in the Palatinate. Torches and flares lighted the bridge across the Rhine over which marched the town's police force of 600 men as thousands along the water's edge and in boats sang "Deutschland über Alles."

The final phase of the military evacuation began in Wiesbaden at 9:30 o'clock in the morning. The inter-allied Rhineland commission, which had headquartered at Wiesbaden since September when the headquarters were moved from Coblenz, closed shop. A battalion of French troops lined up on Kaiserstrasse in front of the commission's building where three flags flew—Belgian, British and French.

The regimental band broke into the "Brabantonne" and the Belgian flag slowly descended. Then the military band played "God Save the King" and the Union Jack slid down the barrels. It was a tense moment as the strains of the "Marsellaise" burst into the air and the tricolor floated down.

High Commissioner Paul Tirard and the other officials crossed the Rhine bridge in motors and a thousand French soldiers in full war paint marched to the railroad station and entrained for home.

A proclamation by President von Hindenburg said:

"After years of bitter distress—after the acceptance of oppressive burdens, we have regained for the Rhineland a freedom that we shall preserve for the welfare and future of our fatherland."

"Therefore, in this solemn hour, let us be united in the pledge, Deutschland über alles."

A LMOST before the outside world knew anything about it, there was a successful revolution down in Bolivia, caused by the alleged efforts of Hervarus Siles, resigned president, to regain the office of chief executive and hold it in perpetuity. Troops led by Gen. Carlos Blanco Galindo, incited La Paz, the capital, after a hot fight, and Siles and his friends fled or took refuge in foreign legations. The military junta took charge of the government and announced financial and other plans for the immediate restoration of the republic to its normal condition on a constitutional basis.

It was understood that free elections would be held and a new president designated in such a manner that he cannot perpetuate himself in office.

The populace in La Paz was delighted with the success of the revolutionaries' movement, and great crowds surrounded the Brazilian legation, which sheltered Siles, demanding that he be given up for trial by the courts. Gen. Hans Kundt, German chief of staff of the Bolivian army, who was accused not only of aiding Doctor Siles, but of proselytizing the Bolivian forces, fled to the German legation. General Galindo took steps to protect all the former officials from violence.

GREAT BRITAIN is taking relentless measures to end the "passive" rebellion in India. The latest of these was the arrest of Pandit Motilal Nehru, Hindoo and acting president of the All-India national congress, and Sayed Mahmud, a Moslem, secretary of the congress. They were tried immediately and sentenced to six months' imprisonment. These arrests created a great sensation throughout India and a hush or cessation of all work was proclaimed in protest. In Bombay a "boycott week" was started and housewives were urged to refrain from buying British goods.

The spirit of the Nationalists seems far from broken. In many cities the school students, both boys and girls, have joined the movement, quitting their schools, holding parades and assisting in the picketing of British shops.

A MERICANS of 22 countries gathered in Paris with Frenchmen to celebrate the France-American committee's "week of American nations," heard Raymond Poincaré, former president and former premier, take the United States to task for its new tariff law. Mr. Poincaré presided at a dinner to national delegates.

"There is a crisis in the friendship of the two nations which if not remedied promptly will grow worse," he said. "Counties that try to antagonize other peoples will find that they are attached to those other peoples by bonds they cannot break."

RESERVE SYSTEM'S DIVIDENDS ANALYZED

Bankers Find Increased Payments to Member Banks Would Be Small Inducement.

VARIOUS proposals that member banks in the Federal Reserve System should participate more largely in its net earnings through an increase in the dividend rate above the present fixed 6 per cent "would be a very small financial inducement" to them, it is declared in a recent study of this

subject by the Economic Policy Commission of the American Bankers Association. This is shown, the commission says, in a theoretical forecast on the basis of the past six years, of additional earnings that would be disbursed to member banks during the next six years under two plans introduced in bills before the United States Senate.

The Fletcher bill provides that Federal Reserve bank earnings, after present 6 per cent dividends to members and completion of a 100 per cent surplus, should also be distributed as extra dividends to the stockholder banks, the amount to be paid by the public debt, which now totals \$16,185,000,000. Not much for such a rich country. Business might be better if bonds were not paid off so rapidly.

HUGO SCHREIBER JR., State of Michigan,

County of Crawford,

Michigan,) ss.

I, Charles Trumble, of Grayling,

Michigan, do hereby retract any

statement I have made stating that

Hugo Schreiber, Jr., had mixed oleo-

margarine with the butter he had

I do not know that the butter I

spoke of was butter sold by the said

Hugo Schreiber, Jr.

Dated, June 21st, 1930.

C. T. Trumble,

Witnesses:

M. Nellist,

Henrietta Love,

April 23, 1930,

Department of Agriculture,

Lansing,

Herbert E. Powell, Commissioner,

Michigan,

Dear Sir:

Answering your letter of recent

date relative to a specimen of butter

which you submitted to us, we have

made an analysis of the specimen re-

cured here and it is our opinion

that this specimen is a pure butter and

does not contain an admixture of

oleomargarine.

Yours very truly,

Wm. C. Gentry,

Consolidated District Health

Department,

Grayling, Michigan,

June 9, 1930.

This is to show that Hugo Schreiber

butcher's butter was found pure butter

by the Consolidated District Health

Department.

Signed,

R. R. Howard, M. D.

Leave been taking Kruschen Salts

for nearly 3 months. I have continu-

ed taking one teaspoonful in warm

water every morning. I then weighed

212 pounds, was always bothered

with pains in my back and lower part

of abdomen and sides.

Now I am going to say I am

well again, feel much stronger

than I was a year ago, and my weight is 161

pounds. I do not only feel better but I look better, so did my friends say.

I shall never be without Kruschen

Salts, will never cease taking my

daily dose and more than glad to

highly recommend it for the great

good that is in it." Mrs. S. A. Sul-

mon, New Bern, N. C., Jan. 1930.

P. S. You may think I am exaggerating by writing such a long letter,

but truly I feel so indebted to you

for putting out such wonderful salts

that I cannot say enough."

A bottle of Kruschen Salts, that

lasts 1 weeks costs but 85 cents at

the Mac & Giley drug store and

drugs it the world over. Take one

half teaspoon in a glass of hot water

every morning before breakfast—

walk a little each day. Three times,

with two failures in five tries, the

The Log Office Says

Interesting bits of news and comment about Northeastern Michigan gathered by the E. M. T. A.

(By Katherine Banta)—I'd heard that all celebrities go to Mackinac Island at least once in a lifetime, either to storm some citadels or get a drink of spring water, so I thought a couple of weeks ago that I had put it off long enough. Consequently I started the adventure by getting off the M. C. Hullman at Mackinaw City and eating breakfast with Edie Guest. Of course, Mr. Guest didn't know it. He thought I was just one of the mob who wanted orange juice and coffee. Oh yes, Mrs. Guest was there, too, and ordered "daddy's" bacon and eggs and coffee for him. One thing, I found out, that Mr. Guest and I have in common—an aversion for staying indoors while crossing the Straits. We stood by the rail and watched the panorama of islands. We gazed at water and sky. He was on the lower deck, and I was on the upper deck.

Another advantage in climbing to the top deck on the "Algonquin"—I hung around and looked wistful and the captain offered me his field glasses. ("They are held glasses, aren't they?") So I didn't miss anything—the shoreline of Mackinaw City misty and green in early morning, nor the big lake boats that passed at a supercilious distance, nor the first glimpse of state, rocky Mackinac Island.

And all this talk about the water cooled the health-giving air of the north in the last days of June, because after dashing into the office of O. W. Lang on the docks—he likes to know when folks of importance arrive—I hurried right out again, and ate another breakfast. Nor is all revealed yet. By noon I was to be found in the first restaurant ordering large steaks and every available vegetable, and ardently inquiring what time supper was served. Now I know why automobiles aren't allowed on the Island: if you stayed there a week and ate all you wanted, you wouldn't be able to get under your own steering wheel.

The air is so clear and bright on Mackinac Island that I had to go out and buy a new hat before breakfast. That old hat looked bright yellow in Bay City, but when I took a look at it in Mackinac, it had a grisly, worse-for-wear aspect. That pellicid atmosphere has its disadvantages. Shows up freckles terribly, too.

"The isolation of the islands of the sea" is claimed for Mackinac Island. Don't you believe it. There's always someone there that you know. Or worse, that knows you. I walked into

Edward and Lewis and Mr. Don Olmstead of Belding visited at the home of Alfred Nephew.
Carl Tuttle and Leonard Clements of Detroit spent the Fourth at the Loudon cabin.

Mr. and Mrs. A. R. Caid entertained their children and families over the Fourth.

Mr. and Mrs. Bill Halburg of Detroit visited Mrs. Bill's parents, Mr. and Mrs. Clarence Stillwagon.

Mr. Roy Small was a visitor at Midway.

Interwoven hostility for men, 50c to \$1.00 at Olson's. —Adv.

There will be an election of school officers and the transaction of such other business as may properly come before an annual school meeting at the High School assembly room, on day evening, July 14.

Mr. and Mrs. Edward Morrissey and Mr. and Mrs. Carl Loskos and son Roger of Grand Rapids spent several days last week with Mrs. Catherine Loskos. The family attended the 4th of July celebration at Gaylord Friday.

The "Playboys" from Michigan State College have rented the Temple Theater and will give a dancing party every night during the encampment.

They opened Tuesday evening with a fair crowd. The dancing is on the Park plan.

Mr. and Mrs. Herbert Wolf of New York City have opened their cottage at Lake Margrethe and will spend the summer there. They have as their guests at the present time, Mrs. Halford Kittleman and small daughter, Mrs. Henry Leeman.

Mrs. Fred Roe entertained her sister, daughter and family of Flint this week.

Arthur Fox entertained his sister and husband from Wawa, Washington.

Gorman C. Merrick, son of Mr. and Mrs. W. J. Merrick of Gaylord has had the honor of being one of the 100 appointees to the Naval Academy at Annapolis by Secretary Adams. He was the only Michigan boy to receive an appointment.

Mr. and Mrs. Frank Bracken and family and Mrs. Charles Ames and children of Detroit are spending a couple of weeks with Mrs. Lucy Moroney. Mr. and Mrs. Howard Smith and family of Detroit spent the week end with Mrs. Moroney.

Mr. and Mrs. Fred Mettert and baby of St. Louis, Michigan, spent the week end with Mr. and Mrs. Herbert Parker and family. Mrs. Marilla Mettert, who has been spending a month with her daughter, Mrs. Parker, returned to her home in St. Louis on Sunday.

Mrs. Andrew Larson and three daughters of Care, Miss Alice Bell, of Traverse City, Mrs. Lena Olson and four children of Grand Blanc, Mr. and Mrs. Cass Chapple and three children of Oxford, enjoyed a week at Lake Margrethe. They were accompanied by Mr. and Mrs. Earl Dawson. The party enjoyed celebrating the Fourth of July at their old home in Lowiston.

Daily the troops are arriving at Camp Grayling and by Saturday, July 12, the last of the outfits is scheduled to arrive and the camp will be officially opened. The enrollment for this year exceeds that of former years and the program will extend over a longer period of time than usual as the last troops will leave July 31. July 20 the Governor's review will be conducted at the usual hour at the reservation grounds.

News Briefs

SLOUT PLAYERS SHOW AT ROSCOMMON

SHOW THREE DAYS,
BEGINNING NEXT MONDAY

The Ruth and Vern L. Slout play-

ers will open a 3 night's engagement in Roscommon next Monday night, July 14, in their waterproof tent. All new plays, new people, new scenes, in fact everything new but the name is what theatre goers can look forward to for the coming 3 night's engagement of this popular company.

The opening play Monday night will be "The Best People in Town" a

comedy drama in three acts said to

be one of the greatest comedies ever

written for the American stage. Be-

tween the acts of the play the usual

high class vaudeville will also be

presented and every member of the

company will entertain, all

with the latest song and dance num-

bers, all being especially written for

the Slout Players Show.

Vernie Slout, who brings his

talent show to Roscommon for three

nights, starting Monday night, July

14, comes with a long string of ac-

complishments in the dramatic field.

One of the most notable is the hand-

ing up preparatory to getting back

into their districts that they had

little time to celebrate. I shall prob-

ably be detained here for 10 days or

two weeks before it will be possible

for me to get away for the summer.

July very quietly and with but few

fireworks. The weather was deligh-

ful, but many Members of Congress

and their families were so busy pack-

ing up preparatory to getting back

into their districts that they had

little time to celebrate. I shall prob-

ably be detained here for 10 days or

two weeks before it will be possible

for me to get away for the summer.

Great interest was aroused in

Washington over a remarkable de-

velopment in Nebraska where the

veteran Senator George W. Norris is

again a candidate. It was due to the

unprecedented situation brought

about when a grocery clerk of Broken

Bow, Nebraska, named George W.

Norris, entered the primary contest.

Norris' supporters will demand a Court ruling on the queer

state of affairs and in the absence of

any legal precedent in the State will

ask for a mandatory Court order to

compel distinct designation between

the two names. Alleging that the

entrance of the grocery clerk into

the race is merely to so confuse the

voters that Senator Norris would lose

many votes, Senator Norris and his

supporters state emphatically that

the sole purpose of the move is to

try unfairly to defeat him.

Secretary of the Treasury Andrew

W. Mellon reported in a statement

July 2 that plans for speeding up

public works would result in the next

six months of seventy-one projects

being undertaken in thirty-nine states

at a designated cost of \$55,735,500.

One of the most interesting de-

velopments arising from Admiral

Byrd's South Pole Expedition is the

question of whether or not the United

States of America will claim owner-

ship of Antarctica over which Admiral

Byrd raised the Stars and Stripes in

claiming these newly-discovered lands

for his country. Great Britain has

long tried to claim the whole of

Antarctica—which is not unusual for

Great Britain—but so far the State

Department has studiously avoided

admitting the claims of Great Britain.

The personnel of the new so-

called Universal Draft Commission

so far as the House was concerned

was announced by Speaker Long-

worth July 2 when he named as

House members Representatives
